

5 March 1964

MEMORANDUM FOR: Assistant for Administration

ATTENTION : Chief, Logistics Branch

SUBJECT : Inventory of Image Enhancement Viewer

1. Certain items, necessary to make the Image Enhancement Viewer operational, were not included in the recent shipment of the instrument from the Itek Corporation of Lexington, Massachusetts. Arrangements will be made for obtaining these items through a trip to Itek by one of our personnel; this was concluded as per our telephone conversation on 5 March 1964.

2. Upon receipt of all equipment you will be notified so that the contract can be terminated. A copy of the letter sent to [REDACTED] is enclosed.

Dear 

STATOTHR

An inventory of all accountable items for the Image Enhancement Viewer has been completed. Certain items, which are listed below, are not present and prevent our making the instrument operational. These items are as follows:

1. The ground glass viewing screen for the viewing unit.
2. 35mm camera shutter release cable.
3. Filor micrometer eyepiece.
4. 21X - B&L objective.
5. 6X - B&L objective.
6. 2X - B&L objective.
7. 1-5X eyepiece (for variable power).
8. 1-7.5X eyepiece
9. Special test object, consisting of transparency of measuring scale; used primarily for accurate measurement of system magnification (the manual refers to this specifically in 3.5.2.2 and in the 7th sentence of 3.5.2.10.).

One each of items 7 and 8 were sent, but two are required. All items listed above except item 9 are specifically referred to on page 5 of the 9043 Status Report - Phase I, Final Report dated 31 August 1962.

In addition, certain items received in the shipment do not belong to the instrument.

1. 1-5X field of view eyepieces.
2. 1-3.5X AO objective.
3. 1-4X B&L objective.

STATINTL

[REDACTED] is expecting to visit your area in the near future and to expedite transferral of the above listed equipment. It is suggested that he pick up the items required for the Image Enhancement Viewer. During his visit, a corrected copy of the Operator's Manual will also be given to you.

I hope that this arrangement will meet with your approval. I would appreciate a reply at your earliest convenience in order that we may make the instrument operational and that satisfactory termination of the contract may be brought about.

Please note that there has been a change in the address to which classified material will be forwarded and that the [REDACTED] address is no longer valid. Please send any future correspondence in the same manner as classified material has been sent previously, that is, in double envelopes using the following address:
